BEAUTIFUL You Consultation

Let's work together so I can show you the latest as well as time-tested, clean, non-toxic beauty products customized for your perfect skin care routine and makeup application! I highly recommend this comprehensive service, as so many color application challenges actually stem from the lack of, or even a misunderstood, skin care regimen.

The service included in this complete skin care and color consultation:

- begins with an *email questionnaire* sent in advance to target your beauty challenges and desires, so that I may best meet your goals when we're together
- an in-home, thorough *review of every beauty item you own*, from skin care to makeup colors to tools (brushes, sponges, cleansing tools and applicators of every kind), to determine current function and proper, future usefulness
- *a color tutorial* to both demonstrate and give you hands-on practice with your new makeup application techniques as we go. You will learn how to expertly achieve a duplicatable look and receive a private video link of this process to watch on demand.
- *a thorough, written recap with step by step instructions and future purchase recommendations* of safer, non-toxic products to meet your specific needs, and
- *a spreadsheet of your new skin care routine*, download and print ready
- *a color face chart* to visually guide you through makeup application, and
- *one day, one week, and one month follow-ups* to answer any further questions and celebrate your beauty successes! 🎉 😊

This extraordinary service is yours at \$375

(a 25% happily secures the date).

More below ...

Our time together lasts about **3 hours**, but it goes by quickly, as we are **engaged together throughout the consultation**. So block out enough self care time to relax and get the most from this experience.

Every step in this process is designed to leave you smiling, **BEAUTIFULLY**. 💋
What dates do you have in mind? What other questions may I answer for you before we get started?
